Activity Introduction

This carnival was organized by San Wui Commercial Society Secondary School. The event aimed to promote Chinese cultural education through games, performances, and competitions, while providing a platform for kindergarten students to showcase their talents and engage in cultural exchange. It also encouraged parent-child interaction, allowing families to experience the joyful atmosphere of a school carnival. Our school was honoured to be invited, and our K3 students had the wonderful opportunity to perform a traditional Chinese dance, 'The Chopstick Dance,' to promote and celebrate Chinese culture with parents and the general public.
