Project Approach (How much do you know about China?)

Activity Goal

1. Help children understand China's famous landmarks, traditional dances of different ethnic groups, and culinary delicacies, such as the Forbidden City in Beijing, the Mongolian dance, and Beijing roast duck.
2. Enhance children's understanding of Chinese traditions.
3. Cultivate an appreciative attitude toward others' performances.

Activity Introduction

Using a thematic network, the teacher guided the children to explore various traditional Chinese landmarks, ethnic dances, and delicacies, encouraging them to gather relevant information with their parents to share in class. After synthesizing the findings, the teacher and students jointly launched a project-based learning unit titled 'How Much Do You Know About China?', deepening their exploration based on the children's interests. Upon completion, the school invited parents to a learning exhibition, where the children proudly promoted Chinese culture to their families.
