Activity Introduction

Using a thematic network, the teacher introduced the traditional Chinese festival—Chinese New Year—to explore the connection between New Year customs and Chinese culture. Children were encouraged to gather relevant information with their parents and share it in class. After synthesizing the input, the teacher and students jointly launched a project approach unit titled 'Chinese Culture,' deepening their learning based on the children's interests. Upon completion of the project, the school invited parents to a learning exhibition, where the children proudly promoted Chinese culture to their families.
